Art Unit: 1775

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the phrase 'with a reference length of 5 microns' could not be understood rendering all the claims indefinite.

In claim 1, it is also unclear *what* has the claimed range limitations, rendering all the claims indefinite.

In claim 8, it is unclear what the relationship to the coating the innermost layer has, rendering the claim indefinite.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Kyocera (JP 05-057507).

As best construed by the language of the claims, Kyocera anticipates the claimed invention. Kyocera discloses the claimed substrate having the claimed coating thereon, within the claimed thickness.

Art Unit: 1775

5. Until the language of the claims is clear, no more art has been applied.
